### Many an Anadarko Citizen knows How Sure They Are

Nothing uncertain about the work of Doan's Kidney Pills in Anadarko. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

F. M. Beall, grocer, Broadway, Anadarko, Okla., says: "Several years ago I was injured and soon after began to suffer from kidney complaint. I had dizzy spells, no bad at times that I had to stop work. My back ached most of the time and was so lame that I could hardly get about. I also had rheumatism and was annoyed by irregular passages of the kidney secretions. Learning of the great benefit a friend had received from Doan's Kidney Pills, decided to try them and obtained a box from the City Drug store. I had been using them but a short time when my back became stronger. The pains disappeared and the kidney secretions became regular. After using three or four boxes of Doan's Kidney Pills I was in good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### The Country Press

The Western Spirit of Paola, Kan., places the situation of the country press about right in an editorial in a recent issue when it says:

"Things keep getting harder for the country press. Material and wages make the expenses so high there is little or nothing left for profit. The trusts have doubled the prices of paper, ink, type, machinery and supplies the last few years, and the low prices of weeklies issued from the plants of big dailies have pushed down the subscription rate. Twenty five years ago the price of a weekly country paper was \$1.50 and \$2.00 a year; now the average rate is 1.00 a year. The big dailies furnishing their weekly editions at 25 cents to 75 cents a year, puts the country weekly up against a destructive competition. These big concerns buy paper by the train load at 25 to 40 per cent less than the country publisher can get it, because the little country fellow must buy in quantities of a ton to three tons, paying more.

"Then, the fierce competition of the big job plants in the great cities leaves the country fellow the alternative of doing job work at but one to four per cent profit, or shutting up shop. In fact, many, many times the country printer must do work at practically cost, without a penny profit, because he must keep his help and is obliged to shift in every way to meet the payroll.

"In fact, everything they use is away up in prices that are well-nigh prohibitive. Type is 30 to 40 per cent higher proportionally than their subscription rates on advertising and job printing. Paper is 45 to 65 per cent higher, rollers 50 per cent higher, ink 75 per cent higher, gasoline and oils 70 per cent higher, and all furniture 50 per cent higher."

There will be an awakening some of these days. The country press will rouse up and set in making comparisons. And when the old boys do start, there will be something doing.

One chancellor may possibly make the emperor of Germany shut up; but it takes baby jumpers, rattles and nursing bottles to quiet the emperor of China.

The ministers who write that they often get texts from news editorials should know that often the sermon furnishes the text of the editorial.

The restaurants are talking of tariff revisions likewise, with a view of removing bread and butter from the free list.

The Electoral College has no football team worth mentioning, but it is a popular institution just the same.

Booker T. Washington tells about how a woman got a farm for a puppy. Must have been in New England.

Great is publicity. It shows that we can elect a President for about a third of what it used to cost.

### Eastern Star Course

The second number in the Eastern Star lecture course will be given on Tuesday evening Dec. 15 in the Dietrich opera house, the attraction being the Chicago Ladies Orchestra. Holders of season tickets may secure their seats at Stephenson's drug store where general admission tickets may also be secured. The single admission for the evening will be 25 and 50 cents. A matinee will be given a 4:15 o'clock for which the admission will be 10 and 25 cents. The Chicago Ladies Orchestra is an excellent musical organization and will be the best attraction of its kind to be seen in this city this season.

## Musings of the Metropolis

News of New York Town  
Outlined in Brief Form.

### War Declared on Huge Army of Hoboes

NEW YORK.—Open war has been declared upon the huge army of hoboes that infest this city and prey upon the people. The nomads have rushed into the metropolis from all directions in a steadily growing torrent, until the commissioner of charities finds his department unable to cope with the situation and has been compelled to call for the co-operation of the police.

There are some unemployed in New York who are anxious to find work. But they are in a hopeless minority. For the past two weeks not a single one of the hoboes that applied to the city lodging houses for food and shelter were willing to accept the work offered them by Supt. Yorke and his aides. They did not care to work outside of New York, they said, and they would not do farm work. They would not work in the woodyard maintained by the poor commission, and they evinced a marked disinclination to work at anything or anywhere.

The hoboes are little short of riotous.

### New Profession for Women Pays Well

ONE of the newest professions for women that pays well is that of "demonstrator," and every big department store has scores of good-looking young women employed to "demonstrate" something.

The growth of the "profession" was manifested in an advertisement which shows the beginning of a new class of these publicity promoters, and would seem to indicate that there is no limit to the nature of the work. The ad. in question read:

MEN AND WOMEN WITHOUT TEETH wanted; paid by the hour; Friday, 9 a. m. to 12 m. N. Y. Z.

The persons engaged will sit in a store window, exhibit the mouth without Dr. Forcep's teeth, and, whirling around, show a double set at \$6.98 and incidentally the difference they make in the countenance. The pay of the demonstrator depends on the nature of her or his work, although most of them are women. Good looks is essential to corset exploiters, while the woman who shows how a piano may be turned into a folding bed doesn't matter so much.

As a rule a demonstrator is paid

five dollars a day, while some exceptionally pretty or stylish woman who shows things used or worn by her sex gets more.

With the schools of salesmanship teaching young women how to approach a prospective buyer with a fascinating smile, the demonstrator actually shows curious shoppers how the wares she is hired to show off look or work or act.

Where formerly manufacturers had to depend on signs and labels, the business competition is so keen now that shoppers have to be shown the merits of some new thing.

On upper Broadway, in an automobile supply house, a well-gowned woman "demonstrates" how a patent veil can be put on or off in a second. In a big department store a middle-aged woman with half her face free from wrinkles may be seen demonstrating a bleach. Biscuit makers, pancake flours, soups, new shoes, health corsets, and patent beds are being shown daily by this army of the new profession, and many women travel all over the country "demonstrating" with a route laid out like a theatrical star. A week in St. Louis, a week in Chicago, a week in St. Paul, and so on. Their expenses are paid, of course, and their salaries besides.

The new employment has proved a great boon to many women, and the first feeling of nervousness over the publicity part of it soon wears off.

### Russian Woman Plans Adamless Eden

LONG ISLAND is to have an "Adamless Eden," Mme. Davidoff, a native of Russia, but now a resident of New York city, is establishing an experimental farm at Bellecrest, near Northport, L. I., which will be operated by women. Men will be barred from the greenhouses, where fruits and flowers are to be grown every month in the year by the aid of electricity. While similar experiments have been made by this and other governments, Mme. Davidoff believes her experiments will prove more successful than those carried on by the bureau of plant industry of the department of agriculture.

Mme. Davidoff says the experiment will be based on the theory that the growth of vegetable matter, which ceases at sundown, will continue through the night if proper artificial

light is supplied to stimulate the developing powers of plants. Fruits and flowers that are grown in this section only in the spring and summer months, she believes can be cultivated during the entire year.

"This is not intended as a money-making enterprise," said Mme. Davidoff in an interview. "While of course, we expect the experiments to prove successful and the farm to be self-supporting, yet my object is to make it a philanthropic enterprise with the view of helping members of my own sex, as well as to prove the scientific value of the plan with which I have been experimenting for several years."

"There is no connection between my venture and the utterances of Sir Oliver Lodge, the English savant, relative to the influence of electricity on plant life. The two systems differ chiefly from the fact that all of my experiments are made under glass and under certain conditions a static machine is used in addition to dynamos." Active work on the farm at Bellecrest will begin, she says, within one month, upon the completion of the necessary buildings and the installation of the electrical apparatus.

### Yerkes Home May Be Sold at Auction

THE Yerkes mansion, at Fifth avenue and Sixty-eighth street, which, with its paintings and art treasures, would, it was generally believed, eventually pass into the control of the Metropolitan Museum of Art, may be sold at foreclosure. The Mutual Life Insurance Company has brought foreclosure proceedings against Mrs. Mary A. Yerkes, widow of the traction promoter, basing the action on a total indebtedness of \$242,292, of which \$225,000 represented a mortgage on the property and the rest unpaid interest. Mrs. Yerkes has put in no appearance by herself or otherwise, and a sale will be sold at auction.

Mr. Yerkes left a will in which he provided that upon his wife ceasing to live in or use the home and art gallery, or upon her death, a corporation was to be formed to take over the property as the Yerkes gallery, and that it was then to go to the city. This corporation was to be made up of five members appointed by the trustees of the Metropolitan Museum of Art, and was to include the mayor. There was also a provision in the will setting aside \$750,000, the interest of which was to go toward maintaining and caring for the gallery.

At the time of Mr. Yerkes' death it was found he had mortgaged part of the art gallery to the Mutual Life for \$225,000. The gallery is L shaped, and runs on an inside lot back of the Yerkes house, the front of the gallery facing in Fifth avenue on a lot 25 feet wide and running back 100 feet. This was the lot mortgaged and formed a part of the gift to the city.

**Our Clothing Stock Is Going At Prices That save you Dollars**

**W**HEN we said that we were going to close out our entire stock of Clothing, we meant just what we said, and have been making prices that convince everyone who comes to our store and looks, of the correctness of our statement. And the prices have been moving the goods. Hadn't you better come in this week and select that suit you have been wanting? You'll save money by buying now.
